Modular System

Professional Variable Arm System

This new addition to Noga's modular holders allows you to assemble a specific holding system from delicate fine positioning to heavy duty support.

The Noga Variable Arm features a double-articulated, triple-jointed arm that can be locked into limitless angles which enables you to support circuit boards, lights, monitors or secure any compact table-top subject. Noga Holding Systems gives you the versatility and dependability no regular bracket, clip, clamp, wire or balancing act can.

When it's vital you're not let down by inflexible and time-wasting equipment the Noga Holding System keeps you in control.

Ingenious technology at the heart of your art
